

The background of the slide is a composite astronomical image. It features a bright blue and white galaxy on the right side, with a dense field of stars. On the left, there are several curved, reddish-brown lines that appear to be star trails or light trails. A prominent blue signal waveform, resembling a gravitational wave detection, is overlaid on the lower-left portion of the image. The overall color palette is dominated by blues, whites, and reds.

Awards

EFTf

2014

Marcel Ecabert Award

Jean-Pierre Aubry

Neuchâtel, Switzerland

“For his outstanding involvement in industrial developments in time and frequency metrology and in recognition of his major contribution dedicated to the strengthening of interactions between industry and academic research”
